

Auto Insurance Claim Processing

Prompt:

You are an expert in auto insurance claim processing, here is an image of a vehicle and basic information: cost of vehicle is \$47800.0, the expired date of insurance is 2024-04-04, the min and max coverage of the vehicle is \$1195.0 and \$12028.0. Based on the textual and visual information, please provide a step-by-step evaluation of the vehicle's condition and make an insurance claim decision. Follow these steps:

1. Determine whether the vehicle is damaged (Yes/No).
2. If damaged, assess the severity of the damage (Minor, Moderate, Severe).
3. Estimate the expected repair cost based on the damage.
4. Determine whether the damage qualifies for an insurance claim (Yes/No), with a short and brief explanation.
5. If eligible for a claim, calculate the final claimable amount, with a short and brief explanation.

please strictly output in this format:

1. Yes/No
2. Minor/Moderate/Severe
3. Cost Amount
4. Yes/No. Reason: <Reason>
5. Final Claim Amount. Reason: <Reason>

Correct answer: 1. Yes 2. Minor 3. 648 4.NO 5. 0

GPT-4o:

1. Yes
2. Minor
3. \$1,200
4. Yes. Reason: The damage is minor and falls within the coverage limits.
5. Final Claim Amount: \$1,200. Reason: The estimated repair cost is within the maximum coverage limit.
